Precious: ——

Did you ever hear of a member of the fair sex not being able to talk? Sounds almost impossible - don't it? Well, that just the position I am in. I dont know what to write!

I expect that I shall leave early to-night - and I mean to stop off at Loeser's to get our ~~montations~~ announcements into the

and then "Nothing to do until to-morrow!"

If I can get the envelopes, I shall stop down at your house from the disp. on my way home. So I may probably see you for a few minutes to-morrow. If I do not come, then you shall know I have been unable to get them and we will have to mail them as they are.

second envelope. If you have not mailed yours - wait until to-morrow with you? I should like to mail them as they should be. How did the folks like them? I had to take them out again to-day to admire them.

From Lucie's I shall ride directly down to see my uncle, and to bring him his medication. I shall return home for supper. After supper I get to press those pesky linen suits ——

Have you been wearing your glasses? And how do your eyes feel? And your arm?

With all my love and kisses, I shall close

Your loving

Frances
